## ORGANIZATIONAL SURVEY<sup>1</sup>

My (University/Institute name) is conducting a research on different kinds of organizations in (city name). This research is part of **the project *Youth, Unemployment, and Exclusion in Europe (YOUNEX)***, which is being carried out by scholars from six European countries. The Younex project aims at providing new knowledge on the causes, processes, and perspectives for change related to social and political exclusion of unemployed youth.

The **goal of this questionnaire** is to gather information on activities and institutional relations of civil society organizations dealing with unemployment and precariousness in order to ascertain the impact of organizational networks and social capital on integration. We are, of course, very interested in your organization and that is why we have contacted you.

Please note that the results of the study will be used for scientific publications and the information that is provided will be treated as **confidential**. Although we will be asking very precise questions on your organization, we want to stress we are not specifically focusing on your organization alone. It is the general picture, which interests us. But to get a good general picture, we need good information on individual organizations as well.

If you want to learn more about the research, please visit the **project website** at: <http://www.younex.unige.ch> and / or write to us at [younex@unige.ch](mailto:younex@unige.ch)
